

HARD WORK FOR CHICAGO SOCIETY "ROOKIES"

Chicago, Aug. 10.—Up at Lake Geneva where, in other years they have spent the hot weeks of August picnicking and motoring, several hundred women, recruited from Chicago's elite, started today to learn to do things for their country.

The women are enrolled in the national service station, which is being conducted under the auspices of the Navy League. Their tents are pitched on the campus of Northwestern Military Academy, and for one month they will live the life of soldiers—eat, sleep, drill, work.

Women who ordinarily never think of getting up before the sun is noon-high will roll out when reveille sounds at 6:30 o'clock. And these same women, to whom 2 a. m. is the nominal retiring hour, will, in the parlance of the rookie, "hit the shucks" at 9:30 p. m. In between, they will eat, sleep, drill and work. There will be no maids, nor even "handy" men to put up with blown-down tents.

When the bugle sounds they will arise, put on their loose-fitting khaki suits and flat-heeled shoes, make their cots, put their tents in order, wash at a common pump—all in a half hour. At 7 o'clock they will report to their commanding officer for calisthenics, and will work for another half hour.

At 7:30 they will grab their aluminum mess kits and line up for the well-known cry for the field kitchen of "come an' get it." The fare, however, is a little more dainty than the average preparedness camp. Each will receive a portion of grape fruit, shredded wheat, cream, hominy, bacon, bread, butter and coffee.

When they have finished they must clean up their dishes, re-pack their kits and be ready at 8:30 for classes, which continue until 12:30. These classes will include a variety of things—from giving first aid to how to prepare a field meal. How to make surgical dressings, hospital supplies, how to signal with flags and by wig-wagging will be taught. Other classes will teach telegraphy, motor and ambulance driving and attending, and the mechanism of the machines.

Lunch will be at 12:30. A sample consists of fish, tomatoes, mashed potatoes, buttered beans, lettuce salad, pickles, bread, butter and sliced pineapple.

From 2 until 4 o'clock there will be more lectures, and another half hour of calisthenics. Leave may be obtained then until the evening mess call at 6 o'clock.

BRANDEIS AND LANE ON MEXICAN BOARD

NAMED BY WILSON AS TWO OF THREE AMERICANS TO DISCUSS BORDER AFFAIRS.

TRANSLATION CAUSED DELAY

Washington, Aug. 9.—Secretary Lane of the interior department and Associate Justice Brandeis of the supreme court have been selected as two of the three American members of the joint commission which will undertake settlement of Mexican border difficulties.

The name of the third member will be made public later. Delay in communicating the commission plan was due to conflicting translations of that portion of Gen. Carranza's last note dealing with the suggestion to give a broader scope to the commission.

Withdrawal of American troops from Mexico, negotiation of a protocol covering future border operations and investigation of the interests behind the border raids first were outlined by Carranza for discussion by the commissioners and when the United States suggested a wider latitude, Carranza indicated that he desired the three specific questions named taken up "preferably."

Whether he meant to close the door on wider inquiries into relations between the two countries and means of restoring economic and financial order in Mexico was not certain. Eliseo Arredondo, Carranza's ambassador, assured Acting Secretary Polk that the language meant merely that the commission should first endeavor to formulate recommendations in the specific points before proceeding to other matters.

He said the Mexican government intended to comply with the suggestions of the Washington government completely, except it sought to indicate what subjects it thought should have priority.

The state department never has disclosed specifically its reasons for seeking to broaden the scope of the commission.

It is understood, however, that President Wilson and his advisers are hopeful that a plan may be evolved whereby aid can be given a constructive effort to solve the economic and financial problems which Gen. Carranza is facing.

RAILROAD TRAINMEN ACCEPT MEDIATION

ACTION OF EMPLOYEES AVERTS A WALKOUT—SETTLEMENT SEEMS ASSURED.

FEDERAL BOARD TO BE ARBITER

Acceptance by Workers' Representatives Comes After They Had Flatly Refused to Yield to Arbitration Demand.

New York, Aug. 9.—Representatives of the railroad employees announced that they would accept the offer of the United States board of mediation and conciliation to submit their demands to mediation, provided action is immediately taken.

Acceptance of mediation by the employees came as a big surprise. It had been officially stated by big brotherhood officers that they "would discuss the differences with the railroad managers, but that a third party was unnecessary."

Representatives of the railways, confronted with an overwhelming vote of 400,000 employees in favor of a strike, today proposed mediation by the federal board of mediation and conciliation, when they met with representatives of the four employees' brotherhoods.

The reply of the railroads was delivered by Elisha G. Lee of the Pennsylvania. In behalf of the employees, A. B. Garretson, head of the conductors' brotherhood declined to accept mediation, declaring the employees had found arbitration unsatisfactory in previous instances, and furthermore, that the two sides were in a position to confer directly without and intermediary.

It is now generally believed here that all possibility of a strike of the train men has been averted.

Lee responded that, regardless of the attitude taken by the employees, the representatives of the railways would attempt to enlist the services of the federal mediation board.

Turns Auto Into Dressing Room.

A movie actress has turned her auto into a complete dressing room. Every corner is utilized, and a large wardrobe of clothing is properly accommodated while full length mirrors and a thoroughly equipped dressing table are all at hand when desired. Even a bath can be taken with hot or cold water as preferred. A pipe connected with the exhaust pipe of the engine runs through the car. When mildy desiring hot water she has only to turn a valve.

The Vital Question Is—

If I Should Die Tonight,

What Would Happen To My Family?

What would my estate be? How much would I leave them to live on?

If I have had a hard row to hoe and I have been a producing factor—at least capable of earning a living for them—if I have had a hard time—what kind of a time will they have?

How much will they have to have to live on?

Mr. Man, look that question squarely in the face—how much will they have to have to LIVE ON? Not how much can you spare—but how much will THEY HAVE TO HAVE? They've got to live.
